SAFETY & SECURITY

Guardian garage door openers are manufactured to comply with the latest industry standards. Our advanced electromagnetic wave sensor detects motion from inside or outside your garage to activate the LED courtesy light, making your garage even more secure. Smartphone control enabled with the beam Home app.

CLEARCOM® TECHNOLOGY

Your secure code is communicated to your opener over multiple frequencies. This provides a more reliable response when frequency interference is near.

BATTERY BACKUP POWER SUPPLY (Optional Outside of CA)

- Sleep design, mounts under motor
- Non-spillable lead-acid battery
- Status indicator LEDs
- 2-year effective battery life
- ~300 use cycles*
- Charge time: 24 hours
- Power for ~20 cycles after 12-hr stand-by*

COMPLIES WITH CALIFORNIA SB-969

*New & fully charged battery, room temperature, balanced 8'x7' door

OPTIONAL CONVENIENCE ACCESSORIES

Ask your dealer about adding more convenience and control with your new operator.

Wireless Keyless Entry Keypad

An entirely weatherproof, wireless keypad that allows quick and secure access to your garage door. One keypad can control multiple Guardian garage door openers. **Item # WKCC**

Deluxe 1-Button or 2-Button Remotes

Compact modern design, comes with visor clip. Choose easy-to-press button to control one door or 2-button to control up to two Guardian motors. **Item # D1B & D2B**
