Lifetime Motor Warranty/1-year on all other Parts

SHADOW Accessories . . .

Multi-Function Control Panel. Opens/controls door and turns garage door opener lights on/off from inside garage. Locks out all radio signals while you're away. Includes an adjustable light timer and illuminated oversized pushbutton for convenience.

3-Button Remote Control. With rolling code technology, this transmitter selects a new code from over 100 billion possibilities with every use. Operates up to three garage doors.

Optional Premium Motion-Detecting Panel. This "hands-free" detector automatically turns on the garage door opener lights when you enter the garage.

Optional Keyless Entry. The illuminated wireless keyless entry accepts a 4-digit code to open and close your door without a key or remote control. Temporary codes can allow guests or service people to enter garage for a specific limited number of activations.

Optional Mini 3-button remote. Convenient to carry on a keychain. Operates up to 3 garage doors and turns opener lights on/off.

The in-vehicle universal remote control. See your automobile dealer for availability.

SHADOW Safety Devices . . .

Protector System™. Projects an invisible light beam across opening. When door is closing, if any object breaks the beam the door will reverse direction and open.

PosiLock™ Security System. Once your door goes down it securely locks so an intruder can not gain access.

Manual Release Handle. In a power failure, this feature releases the door for manual operation.

SHADOW Features . . .

Brighter light. 200 watts of light. 1-1/2 to 4-1/2 minute delay setting control. Hinged lens for easy bulb replacement.

"Smart" Door Opener. Exclusive feature lets you electronically program security codes from the powerhead easier and faster.

Enhanced Range. Advanced electronics allow you to open/close door from greater distances.
