SLIDETITE 2.0 FOUR-FOLD DOORS

Ideal for
- Fire Halls
- Emergency Medical Services (EMS)
- Light Rail Vehicles (LRV)
- Transit Facilities
- Restaurants and Cafés

- Auto Dealerships
- Sallyports
- Security Gates
- Parking Garage Gates
...And many more applications!
WHAT SETS SLIDETITE 2.0 A PART?

THERMAL EFFICIENCY
Opens and closes twice as fast as sectional doors. This minimizes heat loss. Optional insulated tubular framing is available. You can also replace windows with insulated paneling to increase R-Value.

MANUAL OPERATION
Has the ability to disengage and reengage from floor level, for manual operation at any point in the cycle. This is an advantage available only on Slidetite™ 2.0 doors.

SAFETY
Slidetite™ 2.0 has been designed to minimize pinch hazards providing you, not only the highest performing four-fold solution, but a safe one as well.

AESTHETICS
The Slidetite™ 2.0 has an aluminum retainer that snaps in place. The interior door face has absolutely no fasteners, giving the door a clean and professional look. Large factory-installed glazing creates an abundance of natural light.

LIFE CYCLE
Slidetite™ 2.0 doors are engineered to operate for well over a million cycles. It’s designed for a longer life with minimal maintenance required.

INTERIOR
When space is a problem, Exterior mounting is the solution. Perfect for the retro-fit market.

Slidetite 2.0 features a Pre-Assembled Vertical Jamb and Header that ensures the door will fit perfectly in the opening.

WEATHERLOCK™ SEAL SYSTEM
Thermally efficient and unique complete door sealing system is designed for the harshest climates.

The Arctic Grade extruded neoprene perimeter door seal is engineered to seal out dirt, bugs, wind, snow and water and match up beautifully with most door styles and colors. Low-maintenance & one-time installation.

The bristle-based bottom seal, that screws to the door, provides industry-leading insulation that conforms to any floor.

MOUNTING
Interior Mounted Slidetite™ 2.0 doors are substantially less invasive than traditional sectional doors. It doesn’t impede on other elements of the building’s construction.

EXTERIOR
When space is a problem, Exterior mounting is the solution. Perfect for the retro-fit market.
