

Optimize Your Loading Dock Efficiency with ClimaSeal by Richards-Wilcox

Richards-Wilcox
Garage Doors

Protect your facility, conserve energy, and increase productivity with ClimaSeal, Richards-Wilcox's premium line of dock seals.

Available in three models – **Fixed Header, Adjustable Curtain, and L-Shape** – ClimaSeal offers rugged performance, high-quality materials, and long-lasting durability for a wide range of loading applications.

Whether you need standard coverage or full-perimeter protection, ClimaSeal dock seals are engineered to perform.

ClimaSeal Dock Seals

Engineered for rugged performance, energy efficiency, and long-term durability, ClimaSeal dock seals create a tight seal between your dock and trailer to reduce energy loss, improve safety, and keep weather, debris, and pests out.

All models include:

- Heavy-duty side pads with kiln-dried lumber backers for long-lasting structure
- Double-stitched, overlaid wear flaps to protect high-contact surfaces
- Full-length, high-visibility yellow guide stripes for safe and accurate trailer alignment
- Compression-release brass grommets to reduce stress on pads and extend product life
- Optional wear pleats package available for added durability in high-traffic docks
- 22 oz or 40 oz fabric options to suit your application and budget

MODELS

CS10 Fixed Header Dock Seal

A durable, cost-effective solution for dock openings with consistent trailer heights.

- Fixed head pad design
- Ideal for 8' x 8' or tapered openings

CS20 Adjustable Curtain Dock Seal

Designed to accommodate trailers of varying heights.

- Adjustable head curtain with reinforced edge
- Ideal for 8' x 10' and 9' x 10' openings

CS70 L-Shape Dock Seal

Full-perimeter sealing and enhanced thermal performance.

- Wrap-around side pads
- Compression head pad for a tight, energy-efficient seal

Why Choose Richards-Wilcox Dock Seals?

- **Enhanced Weather Protection** – Shields your facility from rain, snow, and debris
- **Improved Energy Efficiency** – Reduces heating and cooling loss, lowering energy costs
- **Durable Construction** – Built to withstand heavy use and harsh conditions
- **Customization Options** – Choose from multiple fabric weights and wear pleat packages
